

Join your colleagues for an energizing, hands-on day designed to equip you with practical strategies to enhance stakeholder relationships, unpack challenging scenarios, develop workable solutions, address real problems of practice, and build a powerful professional network.

## **The Art of Communication to Build Meaningful Relationships: Building Better Partnerships Through Proactive and Intentional Actions**

Want to have better, stronger relationships with your stakeholders? Tired of getting/feeling 'beat-up?' Want to improve your public speaking and communication skills? Have people coming at you way too hard and not sure how to handle it and want some effective strategies? Feel like you are being too reactive instead of more proactive in your relationships?

In this energy-filled workshop, Andrew will lead you through a variety of strategies, techniques, tips, and hacks that will help improve your overall communication and interactions with your stakeholders: staff, students, and parents.

### **The Uncommon Scenarios**

We, as school leaders, face so many situations in school and beyond. People, problems, and "this needs your attention now" come at us constantly, and sometimes we wonder: What should I do?

Whether you are a beginner or veteran, come share in this session where Andrew will present several different, challenging, and unique scenarios and present the question to a participant: What would you do?

Then, he and the group will debrief. There will be no judging, just sharing, learning, growing, and certainly laughing! This will be a fun, surprising, and powerful learning experience. Andrew will provide usable examples and practical solutions and brainstorm with the group alternatives to develop positive outcomes for these Uncommon Scenarios!

**Date: April 6, 2026 Time: 8:30-3:00 PM**
